## ALWAYS LEAVE OFFICE ON TIME

1. Work is a *never-ending process*. It can never be completed.
2. Interest of a client is important, *so is your family*.
3. If you fall in your life, neither your boss nor client will offer you a helping hand; *your family and friends will*.
4. Life is not only about work, office and client. *There is more to life*. You need time to socialize, entertain, relax and exercise. *Don't let life be meaningless*.
5. A person who stays late at the office *is not a hardworking person*. Instead he/she is a fool who does not know how to manage work within the stipulated time. He/She is a loser who does not have a personal or social life. He/She is inefficient and incompetent in his work.
6. You did not study hard and struggle in life to become *a machine*.
7. If your boss forces you to work late, *he/she may be ineffective and have a meaningless life too*; so forward this to him/her.

### Leaving Office On Time =
